First of all I would like to introduce to myself, I am Asif Nobel I move to Bangkok, Thailand from Lahore- Pakistan by Religious Persecution of Muslims with our family. Because my younger Brother Sohail Nelson got married with Muslim Girl her name is Sana Gulbaz Ali. When he got married on 25 October 2013, And on dated 28th October 2013 extreme fundamentalist Muslims people attack on our home even my Brother's laws family register a case in Police station now Police including extreme fundamentalist Muslims people want to kills us in Pakistan. There were a few attempts to specify this situation which was of no avail. The situation went out of control which made our life hell. We all brothers try to find a safe place in different cities of Pakistan for safe of our life but could not find it Understanding me the existing situation that is there is no Law and order, there is not a single place where there is writ of the Government fully established; it is extremely fragile situation. In this Situation Churches, NGO even our others relative's not give us shelter in their homes and It is very much and in some situation, worse than a jungle. From that time on word Pakistan is no longer a safe place for us. So at this situation we thanks Lord who send one angel for us he help us regarding making a Passport and with his great help and efforts we left the Pakistan very safely and we move to Bangkok on dated 18 December 2013, to till now. I would like to inform you I am still in Bangkok, Thailand with my Family and Three Brother's Families. Thanks Lord Now we are all Brothers are safe in His Blood. And We also thanks Lord now my Brother's wife Sana is accepted to our Lord Jesus Christ as her personnel Saviors and she is

Present Situation Here in Bangkok

Unfortunately Thai Government is not a Signatory with UNO on Human Rights Charter Geneva Convention 1951. That's why Thai Government not Accepted to UNHCR and they do not accept to Asylum Seekers and Refugees due to this reason we called illegal migrants even we move to Bangkok with Thai Tourist Visas and after two months our visas expired that's why Thai Immigrations and Police with Army can Catch us from everywhere and any time and send us to the Immigration Detention Center(<https://www.youtube.com/watch?v=enGSD1pqFGs>).

Thai Government is not allowed us to do any work and we are living like beggars in small single room with five to six members in the same room. We always see the others hands to feed us the main thing which disturb a lot to the parents that our children are not going to the school for study which is their main right to get education. Even kids are lost Playing life here in Bangkok, Thailand. Because of the fear of Thai immigration and Police we do not go outside freely our rooms is sweet jail for us. Our Children spent all time in the room that's why they are mentally disturb we do not understand Thai language and so that is why we do not understand the difference between Thai Police, immigration and the security guards. Whenever children see any person in the uniform they become frightened and most of the time children got sick and we do not take them to the doctors because of the fear of the Thai police to be arrested. Children if see any police van they become scared and they do not go out of the room for two three days even. We remain close the doors all the time, Sometimes, the Christian Thai neighbors give medicine and other edible things to us when they see us such situation or position. Being Christian and human being, we request that due to all these circumstances please do something for us to make our children free from the scared and frightened life. Kindly do something in the form of sponsoring us on humanity ground so we can take a free breath in the free land.

By the reason of stress and fears of Thai Immigration and Police their mentally Growth is stopped and mentally sick. They are in lack of Food, Milk, Education and freedom which is their main right.

We are going day by day in darkness, there is no light and hope for us but we are thanks to God that because in lot of difficulties and stress we are still alive. We are waiting for Good Samaritan who take care of us to take us from this sweet jail. We are searching for freedom for us and for our small children where they can take a free breath without any fear they can go out and where they can eat three time food without any fear and stress.

We do not understand Thai language and so that is why we do not understand the difference between Thai Police, immigration and the security guards. Whenever children see any person in the uniform they become frightened and most of the time children got sick and we do not take them to the doctors because of the fear of the Thai police to be arrested. May God Bless You
